Currently I am working as a UI/UX Designer at Nesy Design solution. UI/UX Designer with [1 year] of experience creating intuitive, visually appealing, and user-centric digital experiences. Proficient in all aspects of the design process from concept development to final execution, with a strong focus on user research, wireframing, prototyping, and user testing. Possess a keen eye for detail and a passion for crafting engaging interfaces that enhance user satisfaction and drive business goals. Adept at collaborating with cross-functional teams to deliver innovative design solutions that meet both user needs and business objectives. Proficient in industry-standard design tools such as Adobe Photoshop, Adobe Illustrator, and Figma. Seeking opportunities to leverage expertise in UI/UX design to contribute to the success of dynamic projects and drive positive user experiences. Review designs done by more junior UX/UI designers on the team

- Conducted user research to understand needs and behaviors.
- Created wireframes and prototypes for design concepts.
- Designed user interfaces that are intuitive and visually appealing.
- Collaborated with cross-functional teams to align design with business goals.
- Iteratively refined designs based on user and stakeholder feedback.
- Ensured designs are responsive and accessible across devices.
- Implemented UI animations to enhance user experience.
- Documented design specifications and style guides for consistency.
-
