WORK EXPERIENCE

BUCKSTOX

05/2023- Present

- Collaborated closely with design teams, seamlessly integrating Figma design libraries into the development process for a cohesive user experience.
- Championed test-driven coding practices using TypeScript and Redux-Saga, ensuring code quality and robustness while reducing errors and debugging time.
- Worked collaboratively with backend teams to establish API agreements and seamless connections, facilitating seamless data exchange and system interoperability.
- Actively engaged in code reviews, providing valuable insights to enhance code quality and maintainability.
- Created and maintained comprehensive technical documentation for future reference and team collaboration.

JavaScript/ReactJS Developer, VSA Achievements/Tasks

**09/2022 - 03/2023,
Bhopal, India**

- Using HTML, JavaScript, and ReactJS, I created creative websites with animation and video displays.
- Using media queries, I created responsive design layouts.
- Optimisation strategies were used to increase website performance by 60% with core web vitals and minimise load.
- Version control system (Git) was used to record and manage the codebase, guaranteeing consistency and version control.
- On requirements and technical implementation, I worked with the core engineering team.
- Components with cutting-edge technological characteristics were created and tested.
- Skilled in JavaScript, ReactJS, Redux, TypeScript, Html, CSS, Github, Jira, Confluence, Draw.io .
- Collaborated with coworkers to discuss and improve features for a better user experience.
- Also worked on problem solving, code optimization, and project building, where we created a number of application clones that were published on GitHub .
- I took part in daily scrum sessions for decision-making and project development.

COURSE PERSUDAE

Certifications & Training: Online Course in Technical Development at Vector Skill Academy, covering JavaScript programming, HTML CSS, TypeScript, ReactJs, Redux. Gain comprehensive skills in software development, also gain knowledge of Git, GitHub, Draw.io and Jira tools.

SKILLS

Skilled in JavaScript, ReactJS, Redux, CSS, HTML, TypeScript, Bootstrap, GitHub, Git, Jira, VS Code. Proficient in Material UI, Draw.io, Confluence, responsive UI design, and Chrome debugging.

EDUCATION

RKDF , Sarvepalli Radhakrishnan University

Bachelor of Computer

Bhopal, India

5/2018 - 6/2021

PROJECTS

Tic-Tac-Toe game

Developed a Tic-Tac-Toe game using JavaScript, CSS, and HTML, incorporating functionality for determining win, loss, and tie scenarios, as well as providing responsive backgroundsound.
