SUMMARY :

Experienced Front-End Developer with 2 years in React.js, JavaScript, and Redux. Skilled in enhancing user experience, optimizing code, and managing projects with Jira. Proficient in API testing with Postman and knowledgeable in backend basics. Seeking a challenging role in a dynamic development environment.

TECHNICAL SKILLS :

- **Frontend** - JavaScript, React.js, Redux, Router DOM, HTML5, CSS3, Tailwind, Material UI
- **Backend** - Node.js, Express.js, MongoDB, Rest API
- **Dev Tools** - Jira, Bitbucket, Git, Postman

EXPERIENCE:

Software Developer - Broadstairs IT Solutions | Sept 2022 - Present

- Optimized code structure, debugged issues, and resolved bugs to ensure optimal performance.
- Tested API endpoints using Postman for seamless frontend-backend integration.
- Collaborated cross-functionally to create project plans and track progress with Jira.
- Utilized Redux and React Hooks to effectively manage state in projects.
- Reduced loading times by 0.5ms through strategic code optimization, demonstrating a commitment to enhancing system performance.

PROJECTS:

MemonID Social Community Portal : JavaScript, React.js, Redux, Postman, Material UI

- Enhanced Memon ID social community portal features for improved functionality and user experience.
- Resolved numerous bugs through rigorous testing and collaboration, resulting in a 5% increase in app stability.
- Implemented and optimized code for a custom calendar component in the Memon ID project, improving its performance and functionality.
- Utilized Jira board to plan and track tasks, ensuring a systematic approach to coding

Employee Management System : JavaScript, React.js, Redux, Postman, Material UI

- Created an Employee Management System with React, implementing role-based access control for user privileges.
- Designed a user-friendly interface with CRUD operations for effective employee data management.
- Integrated a calendar feature for scheduling events and tracking attendance, enhancing organizational efficiency.

Coaching Management System : JavaScript, React.js, Redux, Postman, Material UI

- Developed a comprehensive application for student and teacher management, allowing students to enroll, track syllabus completion, and view attendance records.
- Implemented functionality for students to add topics and chapters, organized by subject categories, enhancing their learning experience.
- Integrated links for accessing lectures and clearing topics, providing additional resources for students

EDUCATION :

Amravati University, Akola | July 2017 - Aug 2021
Bachelor of Engineering in Computer Science | CGPA - 9.8
