ASHISH TOMAR

Software Developer

+918439220311 | tashish410@gmail.com | GitHub | LinkedIn

Skills

OS: Windows
Languages: HTML, CSS, JavaScript
Technologies/Frameworks: React.JS, Bootstrap, Tailwind CSS, JSON, REST API, Redux-Toolkit
Database: MySQL
Tools: Git, Netlify, VS Code, ,Google Firebase

Projects

TravWander | *JavaScript, HTML5, CSS3, Bootstrap, Netlify*   **Demo Link**

- Created web pages using **HTML, CSS3, and Javascript.**
- Made the side **responsive** using **bootstrap** and **media queries.**
- Used **javascript** functions to improve code efficiency by 80%.

Pro-Food | *HTML, CSS, Tailwind Css, React, GIT, Netlify*   **Demo Link**

- Developed a basic version of food ordering app using **ReactJs,** demonstrating proficiency in building **responsive web- application**.
- Utilized React's **state management** and **component architecture** to ensure efficient data flow and maintainable codebase.
- Used various **react hooks** like **useState, useEffect and useParams** for various functionalities in the web-app.
- Integrated **Swiggy Live Api** to fetch and display data, exemplifying effective **API integration skills.**
- Used **Link**, **Route** for routing and customized **functional components**.

Experience

Mega Audio (Software Developer - UI)   **Oct 2022 - Present**

- Developed dynamic and **responsive web applications** using **React** and **JavaScript**, enhancing **user experience** and improving **application performance**.
- Implemented **React components** and managed application state using **React hooks** and **Redux**..
- Crafted well-structured, semantic **HTML** for various web projects, ensuring **accessibility and SEO** best practices.
- Designed and maintained **responsive layouts** using **CSS**, including modern techniques like **Flexbox** and **Grid.**
- Tested and debugged applications using tools like **Chrome DevTools and cross-browser testing platforms.**

Groz Engineering Tools (Design Engineer Intern)   **Oct 2020 - Feb 2022**

- Drafted and made 3D models and conceptual designs.
- Executed mid-sized engineering projects, studies, tests, and analyses as a part of the engineering team.

Education

B. TECH | ME   **June 2016 - Aug 2020**
Abdul Kalam Technical University (AKTU)
CGPA: **7.8**

Certificates & Achievements

- Completed the **Namaste React course**, gaining in-depth knowledge of **React fundamentals**, advanced concepts, and best practices for building **modern web applications**.
- Attained a score of **314/340** in the **Graduate Record Examinations (GRE)** (2020).
