WORK EXPERIENCE

PHP-MySQL

Akash Technolabs

04/2021 - 10/2021

Ahmedabad, India

Training and Work

- After learning PHP and MySQL here, I completed a six-month internship where I worked on developing e-commerce projects. These projects focused on ensuring proper management for both the customer interface and the admin side.

Laravel Developer

WebPlanex Infotech Pvt. Ltd.

12/2021 - 03/2023

Ahmedabad, India

Work

- I developed an "HR Management System" project at WebPlanex Infotech Pvt. Ltd. incorporating multiple modules, which I have mentioned in my resume.
- Additionally, I have worked on speed optimization and customization for sites on the Shopify Platform.

PHP Laravel Developer

GrapesTech Solutions Pvt. Ltd.

04/2023 - Present

Ahmedabad, India

Work

- I work with multiple technologies and handle live projects. For Laravel projects, I take on new tasks, resolve issues, and develop and improve features as needed.
- Additionally, I create APIs in Node.js and set up the FrontEnd on the Angular Platform, integrating the APIs. I also use MySQL for database management.

EDUCATION

BCA - Bachelor Of Computer Application

P.D.Pandya Institute Of Computer Application

06/2017 - 06/2019

Ahmedabad, India

HSC

Shree Rajabhat Higher Secondary School

06/2016 - 06/2017

Ahmedabad, India

SSC

Shree Rajabhat Higher Secondary School

06/2014 - 06/2015

Ahmedabad, India

TECHNICAL SKILLS

PHP

MySQL

Laravel

AJAX

jQuery

JavaScript

Angular

Node

API Development

C

C++

HTML

CSS

Bootstrap

Postman

Jira

Ubuntu

Git

GitHub

REST APIs

PROJECTS

HR Management System (HRMs) (03/2022 - 05/2022)

- I developed a comprehensive HR Management System using the PHP Laravel framework to streamline human resource operations within the organization. The system includes modules for employee management, attendance tracking, leave management, performance evaluation, and payroll processing.
- The main objective of this project is to ensure proper management for all roles such as Admins, Employees, HR, Managers, etc. For this purpose, I utilized the Laravel framework for backend development, and for the design aspect, I used HTML, CSS, Bootstrap, etc.
- For this project, I utilized Laravel's inbuilt authentication system along with essential libraries. The main system also incorporates PDF generation. Modules include User, Leave, Payroll, TimeSheet, Holiday, Notice, Warning, etc.

Fully Based on E-Commerce Site (12/2021 - 02/2022)

- Customer Interface: Customers have the ability to purchase products, browse through categories, utilize their personal authentication system, and engage in various other activities.
- Admin Side: The administrative panel facilitates tasks like order approval, product and category management, and an authentication system specifically designed for administrators.
