Projects

- One Stay**
"One Stay," mirrors the functionality of popular platforms like Airbnb, showcasing my proficiency in creating dynamic and user-friendly interfaces for hotel hosting and booking.
- HRMS**
HRMS (Human Resource Management System) built using React.js for the frontend and Node.js for the backend. It includes modules for employee management, holiday management, and leave management, with APIs handling data transactions. Additionally, it features user authentication through login and registration functionalities.
