PROFILE SUMMARY

I am always eager to learn and stay up-to-date with emerging technologies. I have a strong work ethic and am committed to delivering the best possible solutions. As an experienced ReactJS web developer, I have a deep understanding of JavaScript, web development concepts and the ReactJS library. I am skilled in building complex, scalable web applications using ReactJS, React Router and other popular React libraries and tools. I have a strong understanding of CSS and can create visually appealing and responsive designs.

TECHNICAL SKILLS

HTML   CSS   JAVASCRIPT   SHOPIFY   REACTJS   MYSQL   PHP

EDUCATION

Master of computer application   2023-2025
Sabarmati University (Ahmedabad)

Bachelors of computer application   2020-2023
Maharaja krishnakumarsihji Bhavnagar University

PROJECT

- **Charity Trust Website (Php, Sql)**

  Collaborated with a team to create a responsive website for a charity trust to raise funds and share information about their initiatives. Designed and implemented the front-end using HTML, CSS, and JavaScript. Developed a PHP-based backend to handle user donations, maintain donor records, and send email confirmations. Integrated a MySQL database to store user data and donation history securely. Ensured the website was user-friendly and accessible on multiple devices.

- **Hotel Management System (Php, Sql)**

  Developed a web-based hotel management system to handle room reservations, guest check-ins, and billing. Designed the database schema, implemented CRUD operations, and ensured data integrity. Utilized PHP for server-side scripting, MySQL for data storage, and HTML/CSS for the user interface. Implemented user authentication and authorization features for staff and admin roles. Deployed the application on a local server for testing and demonstration.
