### PROFESSIONAL SUMMARY

I am an experienced Flutter Developer with 3 years of experience in developing mobile applications, web applications, and desktop applications. I have expertise in native development for both iOS and Android platforms using Flutter. I have a strong understanding of the Material Design guidelines and have created complex Flutter UI/UX designs. My biggest achievements include the successful launch of two projects for a multinational company. I have excellent problem solving skills which are essential for creating efficient and effective applications. I am also proficient in Git, Firebase, and AWS technologies. I am a great team player who can work collaboratively to bring out the best results from any project.

### EXPERIENCE

#### Flutter Developer

AppMatic Tech / India, Ahmedabad

2022 - Now

At AppMatic Tech, India, I worked as a Flutter Developer for the past two years. During this time, I was responsible for developing and delivering high-quality cross-platform applications using Flutter, Dart, and Firebase technologies. My main responsibilities included:

- Designing user interface components
- Developing Flutter applications
- Debugging existing code
- Implementing new features
- Integrating with third-party services
- Writing unit tests to ensure quality assurance
- Updating existing documentation

#### Data Entry Operator

Rites LTD / India, Ahmedabad

2018 - 2022

- Completed data entry tasks with accuracy and efficiency.
- Maintained files, records, and chronologies of entry activities.
- Scanned documents and saved them in the database to keep records of essential organizational information.
- Corrected data entry errors to prevent duplication or data degradation.

#### Project Coordinator

Apollo Pharmacy / India, Ahmedabad

2017 - 2018

- Created job files for each project and maintained current data in each file.
- I coordinated the project outlet and branch issues, manage my teamwork,

- and followed up on all branches' issue
