SUMMARY(CAREER OBJECTIVE)

Versatile Python and Machine Learning professional adept at crafting cutting-edge solutions. Proficient in data manipulation, predictive modeling, and deployment strategies. Committed to driving excellence in technology while continuously honing skills in Python and ML advancements.

WORK EXPERIENCE

Oceanmtech Pvt. Ltd.   **January 2024 - Present**
 Internship Trainee

SAC,ISRO   **August 2023 - December 2023**

Research Intern - Numpy, Pandas, matplotib, netCDF, Algorithms, Training and Testing the model.
- Worked with the Sentinel Radar Data(SAR) to retrieve ocean wind speed using ML.
- Used different libraries such as pandas, numpy,netCDF4,matplotlib for reading large datasets and plot graphs .
- Fitted model using Random Forest by splitting to train and test.
- Saved the model in pickle(.pkl) format as it can be used in future.

AxisRay   **July 2022 - December 2022**

Python Intern - Datatypes of python, OOPS concept, Framework(Django and Flask), CRUD operations.
- Internship on Python language and learnt about basics of python.
- Different task related to basics and OOPS concept of python.
- Worked with Framework like Django and Flask.
- Learned CRUD operations in Django.

Progate   **January 2021**

Learner- HTML and CSS .
- Worked with basics of HTML and CSS & created a small website.

EDUCATION

Silver Oak University, Ahmedabad   2020-2024
Computer Engineering
9.16 CGPA

Infocity Junior Science College, Gandhinagar   2018-2020
HSC
42%

SKILLS

TECHNICAL SKILLS - Python, Django, ML, SQL, HTML & CSS, JavaScript, Java

SOFT SKILLS- Decision Making, Patience, Problem Solving, Adoptable, Responsible
