EDUCATION

Bachelor of Engineering (CGPA – 8.49)
B H Gardi College of engineering and technology Rajkot (GTU)

06/2020 - 06/2023

Diploma in computer Engineering (CGPA -7.6)
Government Polytechnic Porbandar (GTU)

08/2017 - 12/2020

WORK EXPERIENCE

Front-End Developer
BrainerHub Solutions

08/2023 - Present   *Ahmedabad, India*

Achievements/Tasks

- Implemented Angular services to fetch and display data from RESTful APIs, integrating CRUD operations for seamless data management.
- Utilized Angular forms and FormArray along with PrimeNG templates to create dynamic forms for data input and editing, ensuring smooth user interactions and data validation.
- Integrated language translation capabilities into Angular applications using Angular's i18n module, enabling multi-language support and localization.
- Designed and implemented role-based access control systems to manage user permissions within web applications

Front-End Developer Intern
BrainerHub Solutions

03/2023 - 08/2023

Achievements/Tasks

- **Studied and Implemented JavaScript Fundamentals:** Acquired a comprehensive understanding of JavaScript language fundamentals, including variables, functions, loops, and conditionals.
- **Learned Angular Framework:** Gained proficiency in Angular, a TypeScript-based open-source web application framework maintained by Google, to build dynamic and responsive single-page applications (SPAs).
- **TypeScript:** Developed skills in TypeScript, a statically typed superset of JavaScript that compiles to plain JavaScript, enhancing code quality and maintainability in Angular projects.

SKILLS

Frontend Technologies: Angular, HTML, CSS, JavaScript, TypeScript

Frameworks and Libraries: Bootstrap ,PrimeNG, Angular CLI

Version Control: Git, SourceTree   Tools: Visual Studio Code

PERSONAL PROJECTS

Project Management System (02/2024 - Present)
- Developed frontend features using Angular framework to streamline project task tracking across all employees.
- Utilized PrimeNG components for enhanced UI/UX design and functionality.
- Collaborated with .NET Core backend developers to integrate frontend with SQL database.
- Designed and implemented task assignment workflows for efficient team collaboration.
- Participated in Agile processes for effective task prioritization and milestone achievement. Conducted user acceptance testing and incorporated feedback for iterative improvements.

Benchmark (09/2023)
- Roles: Admin, Company, and User
- Benchmark is a website that allows users to compare and benchmark their prices of services provided by different companies in a specific sector (e.g. banking) and choose the service provider that suits their needs.
- Language Localization
