Cyber Security

- Throughout the internship, I worked on SQL injection vulnerabilities and types of SQL injection attack.

ACADEMIC PROJECT

IOT based Vehicle accident detection and rescue system (02/2023 - 04/2023)

- I worked on a IOT based device which detects and reports the accidents that occurs in vehicles through sending message and location to family members.
- The device reduces death ratio by detecting accident and send the signal and location to nearby control rooms for help as soon as possible.
