

# Meet Painter

meetpainter016@gmail.com | +91 9687500779

## EDUCATION

### INSTITUTE OF ADVANCED RESEARCH

B.TECH (COMPUTER ENGINEERING)

CGPA: 7.6

2019 - 2023

### SHETH C.M. SCHOOL

CLASS XII (GSEB)

2019

## COURSEWORK

### UNDERGRADUATE

Object-oriented programming

Operating Systems

Data Structures and Algorithms

Introduction to Programming

Computer Networks

R-DBMS

Design and Analysis of Algorithms

Cloud Computing

## SKILLS

### PROGRAMMING

Languages

Experienced: JavaScript • HTML • CSS • JSX

Intermediate: Java • SQL

Novice: Python

Framework & library

React • jQuery • Redux

Tools

Git • Linux • Windows

## CERTIFICATES

- Sololearn JavaScript
- Sololearn HTML
- Sololearn SQL
- CCC (Course on Computer Concepts) (2017)
- AWS Builders Online Series

## EXPERIENCE

### VYTECH ENTERPRISE | REACT DEVELOPER INTERN

Jan 2023 – Mar 2023 | Ahmedabad

- Acquired proficiency in HTML, CSS, and JavaScript during my internship, applying these skills to develop responsive and visually appealing web pages.
- Gained a comprehensive understanding of basic concepts and components in React, JSX syntax, React Router and the virtual DOM.
- Part of the team in the company's website development during the internship.

## PROJECTS

### NEWSWAVE | REACT

- The NewsWave project is a React-based web application developed with the integration of the News API into the project to fetch and display news articles.
- The application provides users with a user-friendly and responsive platform for browsing and searching news articles from various sources.
- Implemented features such as news categorization, article details view, pagination, and error handling to enhance the user experience.

### QUICKNOTES | NOTES TAKING WEBSITE

- Developed Notes Taking Website project aims to provide users with a platform to create, manage, and delete their notes.
- Used the React JavaScript library for the front end, MongoDB for data storage and a Context API was created for fetching notes.

### DASHBOARD | THEME BASED DASHBOARD

- Developed an interactive React dashboard with Syncfusion components, featuring Theming, Tables, Charts, Calendar, Kanban and More.
- Ensured a responsive and user-friendly interface with customizable themes and advanced filtering.
- Hosted application online with a custom domain using Netlify.

### WEBCART | E-COMMERCE PLATFORM

- The platform has an interface that includes a shopping cart, checkout process, and order tracking, making it easy for users to complete their purchases.
- The platform is developed using React and designed to be responsive and used Redux for state management.
