## Mobile App Developer | Flutter Development | AWS | Dart | Java | Firebase

Experienced Mobile app developer and want to leverage my expertise as a Flutter Developer with a strong foundation in Flutter, Java, XML, and Firebase systems. Seeking a challenging role in a dynamic company where I can utilize my skills to design, develop, and maintain innovative applications, and contribute to the growth of the organization.

## Work Experience

### Flutter Developer

#### Client Projects, Belief Technolab, Rajkot, Gujarat

May 2023 - Present

- **Rom Steel App** - Developed a client-based industrial product with a secure login system. Implemented a unique login method requiring users to contact the admin for OTP verification, ensuring authorized access. Integrated API data for structured display using Flutter, Java, and Firebase. Achieved enhanced user authentication and data visualization, improving user experience and security.
- **Panikin - Notification Based System** - Developed a notification-based system using Flutter and Firebase to deliver personalized notifications based on user preferences. Designed distinct modules for Admin, Employee, and Client functionalities to streamline communication and task management. Implemented MVC and MVVM architecture for efficient data handling and user interface development. Optimized communication channels, enhancing operational efficiency and user engagement.
- **Milk Report Android App** - Contributed to the Milk Report Android app for milk reporting and requests, incorporating user-requested changes. Utilized Flutter, API integration, and UI enhancements for improved functionality. Enhanced user experience based on feedback, ensuring seamless milk reporting interactions.
- **Skibidi Monster Mobile App** - Engaged in the development of Skibidi Monster, a creative content app for children. Created interactive content using Flutter and Dart to entertain and educate young users. Successfully delivered a captivating and educational app, promoting creativity and learning for children.
- **Dynamo Skin Mobile App** - Participated in developing Dynamo Skin, an app using Google Ads to provide skincare information. Integrated Google Ads for user engagement and brand awareness. Enhanced user experience by informing users about skincare products and effective monetization strategies.
- **Success Story Mobile App** - Contributed to the Success Story app with banner, native, and reward ads for monetization. Integrated diverse ad formats for revenue generation and user engagement. Successfully monetized the app and enhanced user interaction, contributing to project success.

## Education

### B.E. in Computer Engineering

#### R.K. University, Rajkot

July 2019 - July 2022 CGPA: 8.26

### Diploma in Computer Engineering

#### Government Polytechnic, Gandhinagar

June 2016 - June 2019 CGPA: 9.04
