Native or Bilingual Proficiency

INTERESTS

Continuous Learning in Mobile Tech

I am passionate about learning new technology.

EDUCATION

BCA(Bachelor of Computer Application)

Savitribai Phule Pune University

2020 - 2023

PROJECTS

1.Edible Oil Selling Application (<https://github.com/Rohit-Jorvekar/edible-oil-sell>) (2024 - Present)

- Led sales initiatives for Coconut,peanut,almond,sesame,mustard Edible Oils, a leading supplier of high-quality cooking oils to retail and wholesale markets.
- Implement features such as product catalog, order processing, and user authentication using React Native components.
- Integrate with backend APIs and services for real-time data exchange.
- Optimize the app for performance and responsiveness on both iOS and Android platforms.

2. Turf Application (2023)

- Utilized Android,Java, firebase and Android studio used to architect and implement robust features, ensuring the application's scalability and performance.
- Extra skill learned is teamwork,time management.
- Develop the front-end of the mobile app, ensuring a responsive and user-friendly interface.
- Integrate APIs for real-time data feeds.

3.Hospital Bed management System (Academic Project) (2023)

- Developed hospital bed management system.
- Technical skills used are HTML, CSS and Bootstrap for frontend and PHP, MySQL for backend.
- Develop a user-friendly dashboard for healthcare providers to manage bed allocations efficiently.
- Design and implement the user interface for the Hospital Bed Management System, focusing on usability and accessibility.

WORK EXPERIENCE

React Native Developer(Intern)

Sumago Infotech Pvt Ltd

07/2023 - Present

Achievements/Tasks

- Proficient in HTML, CSS, Javascript and React Native for front-end App development.
- Developed a visually appealing and responsive web application for a Web Design Competition.
- Actively participated in code reviews and fostering a collaborative and knowledge-sharing environment.
- Implemented new features and functionality based on project requirements, ensuring alignment with business goals and user expectations.
- Participated in regular code reviews, ensuring adherence to coding standards, best practices, and continuous improvement of the development process.
- Integrated mobile applications with back-end services and APIs, ensuring robust and efficient communication between the front-end and back-end components.

CERTIFICATES

Android App Development Workshop Certificate (IQAC)

Completed an intensive Android App Development workshop conducted by IQAC, where I gained hands-on experience in building mobile applications for the Android platform. Developed a solid understanding of Android architecture, UI/UX design principles, and best practices for mobile development. The workshop covered topics such as: - Java programming for Android - User interface (UI) design using XML and Android Studio - Implementation of core Android components, including activities, fragments, and services - Integration of external APIs for enhanced app functionality - Debugging, testing, and deployment of Android applications
