## ABOUT ME

As a dedicated web development student, my objective is to leverage my passion for coding and creativity to contribute to dynamic projects as a web developer. With a strong foundation in HTML, CSS, and JavaScript, I aim to collaborate with experienced professionals, enhance my skills in responsive design.

## WORK EXPERIENCE

### Summer Internship Experience

**InnoBrain Technologies - Anand**

27/07/2023 to 10/08/2023

I have Completed my Summer Internship for the role of Front-end Web Development using React.js (15 - Days).

### Internship Experience (REACT INTERN)

**Code Quality Technologies - Ahmedabad.**

23/01/2024 to 31/05/2024

Internship at Code Quality Technologies offers hands-on experience in React development, sharpening skills through real-world projects and mentorship from industry experts.

## PROJECTS

### One Stay

"One Stay," mirrors the functionality of popular platforms like Airbnb, showcasing my proficiency in creating dynamic and user-friendly interfaces for hotel hosting and booking.

### HRMS

HRMS (Human Resource Management System) built using React.js for the frontend and Node.js for the backend. It includes modules for employee management, holiday management, and leave management, with APIs handling data transactions. Additionally, it features user authentication through login and registration functionalities.

### E-Commerce

E-commerce built using React.js for the frontend and Node.js for the backend. It includes modules products management with APIs handling data transactions. Additionally, it features user authentication through login and registration functionalities.
