PROFESSIONAL SUMMARY

- Experienced Python Django developer with a strong background in designing, implementing, and maintaining web applications.
- Proven expertise in leveraging the Django framework to deliver scalable and efficient solutions.
- Adept at collaborating with cross-functional teams to drive project success.
- Seeking opportunities to contribute technical proficiency and innovation to impactful projects within a dynamic and collaborative environment.

EDUCATION

GUJARAT TECHNOLOGICAL UNIVERSITY
- Bachelor of Engineering – Computer Engineering (2018-2022) from Sardar Patel College Of Engineering, Bakrol, Anand.
- CGPA: 8.29

HSC - Knowledge High School, Nadiad [70%]
SSC - Knowledge High School, Nadiad [85%]

WORK EXPERIENCE

Kathan Technologies - Intern (May-Jun 2021)
- During my internship at Kathan Technologies, I gained valuable insights into both front-end and back-end web development.
- I honed my skills in HTML, CSS, and JavaScript for crafting intuitive and responsive user interfaces.
- Additionally, I delved into back-end technologies, focusing on SQL for database management.
- The internship provided hands-on experience in designing, building, and hosting websites.

MS Project Coaching Institute - Python Django Developer Intern (Feb-july2022)
- As an intern at MS Project Coaching Institute, I underwent a comprehensive 6-month internship focused on Python Django framework.
- Specializing in back-end development, I acquired in-depth knowledge and practical experience in utilizing Django for web application development.
- My proficiency extends to app development in Python, and I successfully completed training in the Python Django framework.
- Notably, I applied these skills to develop an E-Commerce Web Application using Django, showcasing my ability to create robust and scalable solutions.

Intricare Technologies (Nov 2022-feb 2023)
- Highly motivated and enthusiastic junior Python developer with 4 months of experience in software development.
- Strong problem-solving skills and ability to work collaboratively with teams to achieve project goals.
- Passionate about learning new technologies and staying up-to-date with industry trends.
- During this time, I successfully developed a Chatbot-like project utilizing OpenAI and API keys.
- Learn about AWS Lambda by using Python.

Sanfinity Creative Solution Pvt Ltd - (May 2023 – Present)

- In my current role at Sanfinity Creative Solution Pvt Ltd, I serve as a Junior Python Developer, contributing actively to the success of the organization.
- Since May 2023, I have been immersed in a dynamic environment, continuously expanding my skill set and staying abreast of the latest technologies in the field.
- I am currently engaged in a challenging project, leveraging my expertise to deliver innovative solutions.
- Through hands-on experience and collaborative efforts, I have gained valuable insights into new technologies, further enhancing my proficiency as a Python Developer.
- My time at Sanfinity has provided me with a rich learning environment, allowing me to apply my skills to real-world projects and contribute to the company's success.

ADDITIONAL INFORMATION

- **Technical Skills**:
  - Programming Languages: Python(Django Framework), JavaScript, HTML,CSS, MySQL

- **Soft Skills**:
  - Eager and quick learner with a strong enthusiasm for adopting new technologies.
  - Positive attitude combined with strong situational comprehension and management skills.
